

## TECHNICAL DATA SHEET

### GEM 50/50 COOLANT FLUID - READY TO USE

MEG pre-mixed engine coolant.

Product code: AFCOOL

#### **Product Description:**

Gem 50/50 Coolant Fluid is a ready to use engine coolant suitable for all year round use in the cooling systems of internal combustion engines.

It protects cooling systems from corrosion and provides frost protection to minus 33°C

#### **Application:**

GEM 50:50 Coolant Fluid has been formulated for use in most engine cooling systems whether of aluminium or ferrous construction.

Also suitable for use in certain static cooling circuits.

#### **Advantages/Benefits:**

- Suitable for use in most petrol & diesel engines
- Excellent corrosion protection
- Protects against overheating
- Protects against freezing
- Pre-mixed ready for use
- All year round usage
- Multi metal compatibility
- Hard water scale prevention

#### **Main Specifications:**

BS	6580/92
ASTM	D4985
AFNOR	NF RF15-601
Boiling point °C	170
pH, 33 volume % aqueous solution	7.5 to 8.5
Density@ 20°C	1.08
Colour	Green

#### **Health & Safety: (Group 1)**

Please refer to the relevant MSDS which is available to all customers.

#### **Availability:**

Available in Bulk and 200, 20, 5 and 1 litre container

Gem Oils use a QMS system which is ISO 9001:2015 approved

Rev 001 Date 01.01.2020
