

GEM COOLANT EXTENDED LIFE (clear)

Ready to use Long Life engine coolant.

Product Description:

Gem Coolant Extended Life (clear) is based on monoethylene glycol, containing no nitrates, amines, phosphates, borax or silicates and is suitable for all year round use in both petrol and diesel engines.

Application:

Gem Coolant Extended Life (clear) is formulated to be truly universal in its application. It provides a high degree of corrosion protection for all engine cooling systems whether of aluminium or ferrous construction for up to 5 years or 250,000 kms.

It is a pre-diluted and is recommended for maximum freezing and corrosion protection to minus 40°C

Advantages/Benefits:

- **5 year or 250,000 kms protection**
- Protects against overheating
- Protects against freezing
- All year round usage
- Multi metal compatibility
- Hard water scale prevention
- Suitable for use in modern multi-metal engines

Gem Oils use a QMS system which is ISO 9001:2015 approved

TECHNICAL DATA SHEET

Main Specifications:

BS	6580/92
ASTM	D3306/D4656 /D4985
AFNOR	NF R15-601
SAE	J 1034
Colour	Clear
Reserve Alkalinity	-3.8mls 0.1N HCL
Boiling point	108°C
Freezing Point °C	-37.8
Density at 15.5°C kg/m ³	1.072
pH 50% aqueous solution	8.83

Health & Safety: (Group 1)

Please refer to the relevant MSDS which is available to all customers.

Availability:

Available in 1000 litre IBCs, 200ltr barrels, 20ltrs, 4x5 ltrs, 15x1 ltrs

Rev 001 Date: 01.01.2020
